Loupot

COMPANY PROFILE

Complete interconnect solutions for markets such as automotive, telecommunications, electronics, subcontracting, etc

LOUPOT expertise

LOUPOT designs and manufactures integrated interconnect solutions. Its expertise covers 3 fields :

- Stamping of loose or taped technical parts,
- Continuous or discontinuous moulding and overmoulding,
- Automatic and semi-automatic assembling processes.

Products

- Standard terminals,
- Specific terminals,
- Overmoulded connectors,
- Assembled connectors,
- Mechatronics,
- Stamped parts.

Quality Assurance

- ISO 9001 version 2000,
- ISO/TS 16949,
- Customers' approvals : Autoliv-livbag, Valeo, SKF, Continental Automotive.

Company of the AXON' group

- LOUPOT which was created in 1957 joined the AXON' group in 1996. AXON' specialise in the design and manufacture of precision conductors, high tech cables, connectors and interconnect solutions for markets such as medical, consumer electronics, telecommunications, computer technologies, automotive, military, aeronautics and space.
- Sales : 92 million Euro in 2008.
- 1600 staff worldwide.
- International presence : Europe, USA, Asia, India.
- Manufacturing units in Hungary, Latvia, China and Mexico.

LOUPOT enjoys the latest technological developments implemented by the AXON' R&D department in the following fields :

- Space and medical,
- EMC,
- High data rate and high frequency,
- Polymer technologies and metallurgy,
- Industrial welding processes,
- Etc.
