Subject: Conflict minerals from Democratic Republic of Congo and adjoining Countries; Dodd Frank Act 1502 – Annual Report 2022

Dear Customer,

As the AXON' CABLE GROUP continues to ensure that it meets its global moral and ethical obligations, it has become aware and is supporting the "Dodd-Frank Act" which relates to the strict control of products manufactured from minerals (tin, tantalum, tungsten and gold) sourced in the Democratic Republic of the Congo and neighbouring countries.

While our products may contain gold or tin, AXON'CABLE SAS and all its subsidiaries are working diligently with our suppliers of these materials.

All our suppliers were questioned about their own respect for the "Dodd Frank Act". Those who answered us specified us to be "DRC Conflict Free".

At the origin of our approach, we set up the procedure IP020 which involves AXON CABLE SAS, its subsidiaries and all their stakeholders.

We continue to follow this procedure to be in perfect conformity with the "Dodd Frank Act".

We are at your disposal for any further information,

Yours faithfully,

Christelle Olivié
Chief Operating Officer
