

AXON'S CORPORATE SOCIAL RESPONSIBILITY

Axon'Cable, a responsible and trusted company:

72/100! It is the rating given by AFNOR that evaluated Axon 'Cable's CSR commitment to Montmirail. A note that the overall average of the assessments controlled by this body is 54/100. This excellent note illustrates the steps taken by our company for half a century as a responsible and trusted company.

The vision we have for our company is to make it sustainable.

This objective requires ethical and moral values translated into a Company Social Responsibility Charter which aims to benefit all stakeholders in our business (customers, suppliers, shareholders, local community, the environment).

In our commercial relations with our customers or our suppliers, with long-term relationships, respecting moral values, trust, partnership and confidentiality.

We refuse to deal with any organization engaged in human smuggling and modern slavery, as well as any activity contrary to human rights.

We undertake to comply with all laws and other standards applicable to the country in which we operate, including corruption in all its forms, non-use of counterfeit products, or underage minors.

In our relations with our employees, we promote corporate culture and professional development in a pleasant working atmosphere, we ensure safe and healthy working conditions, with the aim of eliminating hazards and reducing risks, with respect human rights and something that the country in which we operate.

In our relationships with our community and our environment, we encourage the promotion of local culture through the patronage of contemporary artists and the protection of cultural heritage.

We promote the actions of Sport, Health and Prevention and train young people and teachers in the professions of the company.

We undertake initiatives to promote respect for the environment and the economy of resources.
